

### Document Status

This menu shows that the MAP2PDF Plug-in is working and was installed correctly

This document has special status or special features.

#### Document Status

This document contains layers. Some layers may not be visible when the document is first opened. Use the Layers tab to show and hide layers.

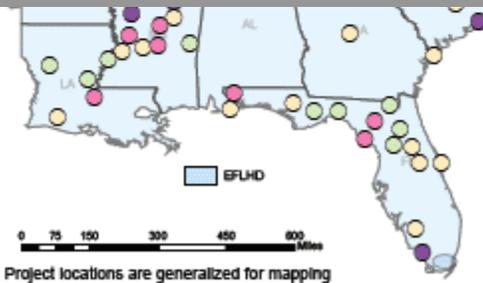

Some objects in this document have additional data associated with them. Using the Object Data tool on the Object Data toolbar, you can select items on a page and view their associated data. You can also use Select All to highlight all of the items on the page that have data associated with them.

Do not show this dialog next time this document is opened.

Document Status icons are always located at the bottom-left corner of the document window. Click a Document Status icon to view this dialog again.

This Window is telling you that GIS attribute data is available CLICK the CLOSE button
